

The idea for this book was sparked by a series of posts I put on Facebook relative to words of wisdom that every father should have for his sons. I received an inbox message from a young man that told me he had been following my posts. He stated that my posts could have saved his marriage had I written them sooner. That inbox, along with numerous others convinced me that #Notestomysons should be more than a creative hash tag I created. These thoughts I was sharing relative to manhood needed to be shared in a book for young men who are traveling on the road of manhood without any direction. It is a long road to manhood and today is a good day to start your journey. My desire is to use this platform to share from a fathers heart some of the things I feel are valuable life lessons. I pray these notes will bless and encourage every son. -Edwin Moore
